

NORTHPEAK JUNK REMOVAL

Brand guidelines.

More
Space.
A Better
Tomorrow.

People. Spaces. Possibilities.

THE IDENTITY / THE EXPERIENCE

THE NEXT CHAPTER STARTS WITH SPACE

It's not just junk. It's what's next.

Every space holds the possibility of something better. A room ready to live in. A property ready for its next chapter. A business ready to move forward.

NorthPeak helps people remove what they no longer need so they can focus on what matters. Clear communication, careful work and thoughtful disposal turn an overwhelming task into a confident next step.

A CLEAR SPACE. A FRESH PERSPECTIVE.

OUR CENTRAL BELIEF

Space is possibility.

Removing obstacles creates room for life to move forward. The open doorway is the visual expression of that belief: a clear threshold between what was and what comes next.

01

People

Make the experience respectful, straightforward and reassuring.

02

Spaces

Treat every property with care. Leave the next step easier to imagine.

03

Possibilities

Talk about the outcome: usable space, clarity and a fresh start.

Clear spaces. Earn trust.

Our mission is to help people reclaim their space through careful removal, clear communication and responsible decisions.

VALUES BECOME VISIBLE THROUGH ACTION

Use these principles in every estimate, arrival, removal and follow-up.

01

Trust

Set clear expectations. Respect the property and the person.

02

Action

Arrive prepared. Work carefully. Follow through.

03

Clarity

Explain scope, next steps and any changes before proceeding.

04

Community

Treat customers, neighbours and shared spaces with respect.

05

Sustainability

Assess reuse and disposal options; communicate only verified outcomes.

THE SUPPLIED DOORWAY N

Original reference artwork, preserved without redrawing or changing its proportions.

An opening. A way forward.

01

The N

An abstract initial gives NorthPeak a distinctive, ownable signature.

02

The threshold

The opening represents obstacles removed and new possibilities made visible.

03

The light

The existing orange illumination adds optimism and directs attention through the space.

One identity. Purposeful formats.

01 / PRIMARY SIGNATURE

Use the complete supplied lockup for first contact and formal communications.

02 / SYMBOL

Use when NorthPeak is already identified nearby.

03 / DARK APPLICATION

Follow the light-lettering treatment shown in the supplied uniform reference.

These are uses of the existing identity. Do not invent new horizontal, monochrome or simplified logo artwork.

Give the identity room.

CLEAR SPACE: AT LEAST X ON EVERY SIDE

X = one quarter of the symbol height in the chosen lockup. Measure from the outer visible artwork.

01

Keep it intact

Preserve the symbol, wordmark, descriptor, proportions and existing light treatment.

02

Keep it legible

Use a quiet, high-contrast field. Never place the logo over busy imagery or across a panel seam.

03

Keep it consistent

Never stretch, rotate, recolour, outline or add effects. Do not add mountains, waste icons or recycling symbols.

Starting proof sizes: full signature 40 mm / 180 px wide; symbol 12 mm / 48 px. Increase size until every detail reproduces clearly in the intended medium.

Four colours. One character.

Deep Navy

Body Arial Regular / 12-16 pt

Label Arial Bold / 8-10 pt / + tracking

More space.

A better tomorrow.

Clear information. Confident decisions.

PEOPLE. SPACES. POSSIBILITIES.

Supporting typography is a catalog specification, not a claim about the original logo font. Never typeset or rebuild the NorthPeak wordmark. Use sentence case, generous leading and left alignment.

Show the space ahead.

SPACE / NATURAL LIGHT

Calm interiors, open thresholds and visible room to move. Keep architecture believable and the frame uncluttered.

PEOPLE / CARE IN ACTION

Document the team with dignity. Show preparation, careful handling and a tidy finish.

ART DIRECTION

Natural light. Honest materials. Restrained warmth. Avoid mountains, staged waste piles and exaggerated before/after claims.

A moving mark of trust.

01

03

01

Identity zone

Keep the supplied signature large on a calm white field.

02

Doorway zone

Use the existing doorway artwork as the transition to the navy panel.

03

Information zone

Keep the message short. Separate service and verified contact details.

Install notes

- Keep primary artwork clear of hinges, handles and body breaks.
- Maintain recognition from a distance.
- Proof every side on the actual vehicle template before fabrication.

Clear spaces. Brighter days.

FLEET APPLICATION / SUPPLIED VISUAL CONCEPT

White for recognition. Navy for authority. A single illuminated opening to express the promise.

BACK APPLICATION / SUPPLIED REFERENCE

Professional, before a word is spoken.

01

The everyday uniform

Deep navy garments, clean presentation and a consistent fit. Use the reference back placement as the visual standard.

02

Artwork reproduction

Use the authorized logo file. Select a print process that can hold the doorway detail; approve a sample at actual size.

If the detail cannot reproduce faithfully in embroidery, change the production method or increase the artwork size. Do not redraw the mark to fit the process.

A considered first impression.

MATERIAL AND FINISH

Substantial uncoated stock. A navy face and a soft-white information face. Keep orange as a fine accent.

INFORMATION HIERARCHY

- Name
- Role
- Verified phone and email
- Verified website

Format

3.5 x 2 in finished size. Use 3 mm bleed and keep live information at least 4 mm inside trim. Confirm printer requirements.

The reference demonstrates visual direction. Its names, numbers and web details are illustrative and must be verified before use.

Order on every page.

A quiet identity at the top. A clear message beneath it. Consistent alignment makes everyday correspondence feel deliberate.

01

US Letter / 8.5 x 11 in

Use a 20 mm content margin. Keep body text at 10.5-11 pt with comfortable leading.

Populate the footer with verified business details. Keep orange to a small rule; avoid large ink-heavy backgrounds on correspondence.

Verified business contact details

LAYOUT EXAMPLE

Presence, without noise.

Let the original mark, tactile material and a controlled glow do the work.

01

Material

Use a concrete setting and dimensional navy lettering, as shown in the supplied reference.

02

Light

Keep illumination subtle and tied to the doorway. Avoid coloured floods and decorative effects.

Fabrication: use authorized vector outlines, test letter depth and lighting, and approve a full-size material sample.

Confidence from the first click.
